Wyatt visited our newly-built home for a new install yesterday and everything went extremely well! (Best install we have ever had!) He explained the process as he went through it taking care to not damage our new home. He was early to the appt and even helped me bring in groceries! He's very detail-oriented and personable as well and thoroughly explained the contract. Super customer focus...as Ashley displayed also on the phone yesterday! And the product itself works great! We could not have been in better hands! Very happy with this company and service! Kudos! Highly recommend!

Customer service was easy to work with; they verified coverage area and reviewed the best plans for me. Their service tech - Aaron S - was the best. He was on time, professional, knowledgeable and courteous. When he left, the install was complete and my internet connection was up and running. The connection speed is amazing! I am definitely a happy customer.
